

# Wood Kote Products Featured in DVD

***Products manufactured in Oregon prominently demonstrated in international instructional woodworking DVD.***

Portland, Oregon December 1, 2010 – Wood Kote Products' wipe-on pigment gelled interior wood stain sold under the trade name, Jel'd Stain and 2-component wood bleach sold under the trade name Lite-N-Up are demonstrated in a recently released instructional DVD produced in Canada. The DVD, entitled *Surface Preparation and Staining*, is produced by internationally known woodworking authority, Hendrik Varju as part of his "Private Woodworking Instruction in a Box" series (see <http://www.passionforwood.com/dvds.htm>).

Both Wood Kote products are manufactured at the Oregon factory and are sold worldwide. Most Wood Kote products are destined for large commercial applications such as hotels and cruise ships. Varju says it is sometimes difficult to find Wood Kote in his native Ontario but demonstrates in his DVD why the products are worth the search.

Wood Kote Products Inc formulates many of its products to meet the requirements of the (California) South Coast Air Quality Management District. Canada, like many other regions throughout the world, has adopted similar regulations. Architects and specifiers are voluntarily selecting low VOC coatings as their contribution toward a cleaner and better environment.
