## 3. Product Description

### BASIC USE

Lin Soap is intended for professional use only. It is a general-purpose liquid soap used to clean a variety of surfaces such as porcelain, ceramic tile and stainless steel. It is specially formulated to clean and restore painted surfaces. It can remove grime without damaging the paint.

### ADVANTAGES

- Economical
- Pleasant odor
- Very effective

### COVERAGE

Depending on the application, Lin Soap will clean approximately 1500 sq ft/gal (36,8m<sup>2</sup>/L).

### COMPOSITION & PROPERTIES

Lin Soap is made from pure linseed oil. It is a high-pH linseed oil soap manufactured using a traditional saponification process. Lin Soap contains a modifying fragrance.

### TYPES

Lin Soap is available from the factory in two formulations: Concentrated and diluted "Ready-To-Clean" spray.

## SIZES

Lin Soap Concentrate is sold in 16-fl oz (473ml), 32-fl oz (946ml) and, 1-Gal (3,8L), 5-Gal (19L) and 55-Gal (208,5L) HDPE plastic containers. Lin Soap "Ready-To-Clean" is sold in 32-fl oz (946ml) HDPE plastic container with a trigger sprayer.

## 4. Technical Data

### PHYSICAL PROPERTIES

See table 1

## 5. Installation

Complete installation specifications and recommendations are available from the manufacturer.

### APPLICATION

Lin Soap is intended for hand application in-shop or on-site. Mix Lin Soap Concentrate and hot water in a plastic bucket. Start with a mild solution of Lin Soap in water (approximately 1 part Lin Soap to 8 parts water). Wear rubber gloves. Begin cleaning an area approximately 10 sq ft (1 m<sup>2</sup>) with a sponge, cloth or soft scrub brush and the Lin Soap solution. Remove the dirty solution from the area with a sponge. If you are not satisfied with the cleaning power of the Lin Soap solution you may add more Lin Soap concentrate. A solution stronger than 1:3 is not recommended. Repeat the cleaning process until the entire area is clean and excess solution has been removed.

### PRECAUTIONS

**IMPORTANT:** Lin Soap is a highly concentrated soap and not intended to be used undiluted. Lin Soap can discolor some metals and plastics. It is recommended that compatibility be tested in an inconspicuous area before use. Lin Soap should only be used by qualified professionals who have read and understood this information. Before using any chemical, read its label and Material Safety Data Sheet (MSDS).

### CLEAN UP

If spilled, clean up using an absorbent cloth or sponge.

## 6. Availability & Cost

### AVAILABILITY

### COST

Cost information is available from recognized Wood Kote retailers or from the manufacturer.

## 7. Warranty

Lin Soap is sold without warranty except that Wood Kote guarantees that the product is manufactured within the specifications provided herein. Unless Wood Kote warranties, in writing, specific products on an identified project, Wood Kote's liability is limited to the replacement cost of the product. The information provided herein is accurate to the best of Wood Kote's knowledge or obtained by Wood Kote from sources believed by Wood Kote to be accurate. Wood Kote Products Inc does not assume any legal responsibility for use or reliance upon this information.

**8. Maintenance****STORAGE**

Keep in the original containers tightly closed when not in use and stored away from direct light at temperatures between 32-110°F (0-43°C).

**CLEANING & REPAIR**

Lin Soap is a maintenance product, and therefore, cannot be directly cleaned or repaired. It can be re-applied as often as required.

**SHELF LIFE**

Lin Soap should retain its effectiveness for at least 5 years under recommended storage conditions.

**DISPOSAL**

Dispose of only in accordance with local, state and federal regulations.

**9. Technical Services**

Additional information is available directly from the manufacturer and from the manufacturer's web site.
